Purpose

It is the vision of the Oklahoma Library Association and the Oklahoma Department of Libraries that public libraries in this state be administered and staffed by trained personnel. To keep abreast of trends, developments, and legislation, library staff must increase their skills and knowledge through continuing education. A well-educated staff upgrades the library profession, enriches the individual librarian, and promotes quality library service. Thus, the goals of this continuing education program are ...

- to improve library service throughout the state;
- to motivate public librarians to acquire, maintain, and develop their skills through continuing education;
- to recognize public librarians who, on a continuing basis, update their knowledge and skills in order to provide better library services to their patrons;
- to improve the public image of librarians and libraries;
- to provide guidelines for public library boards and supervisors to use in selecting and retaining personnel;
- to aid in structuring library educational programs to better meet the educational needs of librarians.

The Continuing Education Board believes that any person working in Oklahoma's public libraries will benefit from the continuing education program and thus encourages all library staff to participate.
